

Confirmation with regard to compliance with the REACH Regulation (EC) No. 1907/2006 and SCIP Database

As importers according to its definition, BBC Bircher AG and its subsidiaries hereby declare compliance with the EC Regulation No. 1907/2006 as well to the amending EC Regulation No. 2020/2096.

None of the goods (neither products nor their packaging) supplied by us to our customers contain more than 0.1 percent by weight (w/w) of substances, which are:

- within the scope published in the current candidate list (valid as of 14th June 2023) to Appendix XIV of the REACH Regulation,

or

- Classified in the “Globally Harmonized System of Classification and Labelling of Chemicals” (GHS)

or

- in the European “Classification, Labelling and Packaging (CLP) Regulation (EC) No 1272/2008” and all eighteen Adaptations to Technical Progress (ATP) as CMR substances according to Categories 1 and 2.

If our products should contain substances, which are included on the candidate list of Appendix XIV of the REACH Regulation, of more than 0.1 percent by weight (w/w) in the future, we pledge to inform our customers immediately.

SCIP is the database for information on **Substances of Concern** in articles as such or in complex objects (**Products**) established under the Waste Framework Directive (WFD) 2008/98/EC. Since none of our goods delivered to our customers (neither products nor their packaging) contain more than 0.1 per cent by weight (w/w) of substances of very high concern (SVHCs) on the candidate list, we are currently not obliged to register them in the SCIP database.
